(iii) Analysis of gross amount of loans and advances to customers by geographical segments

(a) Gross amount of loans and advances to customers by major countries or geographical areas

The following geographical analysis of gross loans and advances to customers is classified in accordance with the location of the counterparties after taking into account the transfer of risk in respect of such loans and advances where appropriate. In general, such transfer of risk takes place if the loans or advances of a customer are guaranteed by a party in a country, which is different from that of the customer. A country or geographical segment, to which not less than 10% of the Branch's total amount of loans and advances to customers are attributable after taking into account any recognized risk transfer, is disclosed below:

	As at	As at
	31 Dec 2018	30 Jun 2018
	HK\$'000	HK\$'000
Hong Kong	8,189,314	7,585,867

(b) Impaired loans and advance to customers by countries or geographical area

As at	As at
31 Dec 2018	30 Jun 2018
HK\$'000	HK\$'000

(c) Gross amount of overdue loans and advance to customers by countries or geographical area

There were no overdue loans and advances to customers, banks and financial institutions as at 31 December 2018 and 30 June 2018.

(iv) Individual impaired loans and advances to customers

	As at	As at
	31 Dec 2018	30 Jun 2018
	HK\$'000	HK\$'000
- Individual impaired loans and advances	-	-
- Individual impairment allowances	-	-

VI. Liquidity

The Branch has adopted the liquidity maintenance ratio (LMR) requirement in accordance with Banking (Liquidity) Rules starting 1 January 2015 onwards and complies with the minimum requirement of 25% as stipulated by the Hong Kong Monetary Authority (HKMA).

Average LMR is calculated as the simple average of each month's average liquidity maintenance ratio for the financial year.

	For the period 1 Oct 2018	For the period 1 Jan 2017
	to 31 Dec 2018 ¹	to 31 Dec 2017 ²
Average Liquidity Maintenance Ratio	52.02%	49.05%

¹ The average LMR of financial year 2018 is calculated as the simple average of each month's average liquidity maintenance ratio of each quarter of the financial year 2018.

The ALCO is responsible for supervising the overall monitoring and control of the Branch's liquidity. The management of liquidity is in compliance with the Branch's Liquidity Management Policy to ensure compliance with local regulatory requirements and limits set by Board of Directors.

On daily basis, Finance calculates the liquidity maintenance ratio, in accordance with the Banking Ordinance, and reports to Treasury Department and Risk Management Department. Liquidity risk is managed on a weekly basis by establishing liquidity risk management indicators and limits to identify, measure, monitor and control the liquidity risk. The Branch also performs cash flow projections and stress testing to identify liquidity risk exposures and possible impact on monthly basis.

² The average LMR of financial year 2017 is calculated as the simple average of each month's average liquidity maintenance ratio of the financial year 2017.

VII. IFRS 16 "Lease"

IFRS 16 provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements of both lessee and lessor. It supersedes IAS 17 "Leases", IFRIC 4 "Determining whether an Arrangement contains a Lease", and a number of related interpretations.

Definition of a lease

Upon initial application of IFRS 16, the Group will elect to apply IFRS 16 only to contracts entered into (or changed) on or after January 1, 2019 in order to determine whether those contracts are, or contain, a lease. Contracts identified as containing a lease under IAS 17 and IFRIC 4 will not be reassessed and will be accounted for in accordance with the transitional provisions under IFRS 16.

The Bank as lessee

Upon initial application of IFRS 16, the Bank will recognize right-of-use assets, or investment properties if the right-of-use assets meet the definition of investment properties, and lease liabilities for all leases on the balance sheets except for those whose payments under low-value and short-term leases will be recognized as expenses on a straight-line basis. On the statements of comprehensive income, the Bank will present the depreciation expense charged on right-of-use assets separately from the interest expense accrued on lease liabilities; interest is computed using the effective interest method. On the statements of cash flows, cash payments for the principal portion of lease liabilities will be classified within financing activities; cash payments for the interest portion will be classified within operating activities. Currently, payments under operating lease contracts, including property interest qualified as investment properties, are recognized as expenses on a straight-line basis. Cash flows for operating leases are classified within operating activities on the statements of cash flows. Leased assets and finance lease payables are recognized for contracts classified as finance leases.

The Bank anticipates applying IFRS 16 retrospectively with the cumulative effect of the initial application of this standard recognized on January 1, 2019. Comparative information will not be restated.

The Bank expects to apply the following practical expedients:

Lease liabilities were recognized on January 1, 2019 for leases previously classified as operating leases under IAS 17. Lease liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate on January 1, 2019. All right-of-use assets are measured at an amount equal to the lease liabilities, adjusted by the amount of any prepaid or accrued lease payments. Which is applied, the Bank applies IAS 36 to all right-of-use assets.

- a) The Bank will apply a single discount rate to a portfolio of leases with reasonably similar characteristics to measure lease liabilities.
- b) The Bank will account for those leases for which the lease term ends on or before December 31, 2019 as short-term leases.

For leases currently classified as finance leases under IAS 17, the carrying amounts of right-of-use assets and lease liabilities on January 1, 2019 will be determined as at the carrying amounts of the respective leased assets and finance lease payables as of December 31, 2018.

Anticipated impact on HK Branch's assets, liabilities and equity

	HK\$'000	HK\$'000	HK\$'000
	Carrying Amount as of December 31, 2018	Adjustments Arising from Initial Application	Adjusted Carrying Amount as of January 1, 2019
Right-of-use assets	-	9,146	9,146
Total effect on assets	-	9,146	9,146
Lease liabilities	-	9,146	9,146
Total effect on liabilities	-	9,146	9,146

VIII. Consolidated Bank Information

	As at 31 Dec 2018 ¹ (Audited) NT\$'000	As at 30 Jun 2018 ² (Audited) NT\$'000
(i) Capital and Capital adequacy Consolidated Amount of Shareholders funds Consolidated Capital Adequacy Ratio*	49,118,712 13.19%	45,577,624 12.69%
